

Test Specification

Epic No: G1-4

Epic Name: Logout

Author: Ieva Morkunaite, María José Domínguez

Version	Date	Author	Change Description
1.0.0	13/02/2024	Ieva Morkunaite, María José Domínguez	

PURPOSE

The purpose of the document is to prescribe the scope, approach, resources, and schedule of the testing activities. To identify the items being tested, the features to be tested, the testing tasks to be performed, the personnel responsible for each task, and the risks associated with this plan.

Introduction

How feature currently work: Not implemented

How feature is supposed to work: The logout feature should allow the user to logout from the platform.

Scenarios to be tested

- 1- Verify that the user is able to logout by clicking on the Logout button

Items not tested.

- 1- Mobile Testing
- 2- Performance Testing

Approach

The approach will be Functional Testing following the designed test cases. The test is going to be performed on Windows 10, on Google Chrome and Firefox. The testing is going to be done on TEST environment on the logout feature.

Testing needs

- TEST environment: <https://www.saucedemo.com/>
- TEST data:
For valid username and password the data that are going to be used is
Username: standard_user
Password: secret_sauce

Risks and contingencies

There aren't risks and contingencies.

Estimates

	Estimates(d)
Analysis	1
Meetings/Demo	0.125
Test scripting	0
Automation	0,0625
Execution	0,03125
E2E	0

Test Automation identification

- 1- Verify that the user is able to logout by clicking on the Logout button
